

# Power on display

## JetBlack DYNOMeter Fluid Trainer

Turn your legs into high powered pistons with the new DYNOMeter Fluid Trainer from JetBlack Cycling.

JetBlack's Fluid technology gives incredible roadlike feel, the exclusive HydroGel roller gives improved smoothness and quiet running, but the real secret weapon is the real time wireless power output display in JetBlack's patented data system. On the DYNOMeter backlit display panel:

**POWER OUTPUT**

Measured in watts, current, average and maximum

**HEART RATE**

Current, average and maximum

Training Zone control alerts you when you are outside your preset zone

**SPEED**

Current speed, average and maximum

**DISTANCE**

Trip distance

Incredible Value RRP \$699
